August 10, 2015

Meeting Agenda

- Call meeting to order and roll-call of officers present.
- Approval of minutes from June CAG meeting.
- Treasurer's Report
- Executive Board Report
- Call for New Business
- Technical Committee Report and EPA Q&A
- Meeting Close

As most of you know our elected federal representatives have come together to ask the U.S. Department of Energy (DOE) to re-examine its exclusion of the West Lake Landfill from its atomic weapons cleanup program known as FUSRAP. One of the reasons cited was that one of the potentially responsible parties, Exelon, has made claims that other materials were brought to the landfill which would fall under the direct purview of the DOE.

Many of us have questions regarding this situation. I want to encourage questions and ask for patience as we try to get answers to these questions.

A reminder to help us get the most from the meeting:

-If you have a question, comment, or motion (only voting members may make a motion); raise your hand and wait for recognition from the Chair.

-Please tell us who you are before you speak.
